JASMUHEEN 2014 FOCUS & SCHEDULE & DATES

Retreats! Retreats! Retreats! Gathering in 2014 to energise, celebrate life & co-create success on all life levels! Throughout 2014, Jasmuheen will continue her travels around the world as the Divine Mother's Emissary and Ambassador of Peace for the Embassy of Peace, gathering all those who are now delving deeper into the flows of unity consciousness with its creative expressions and flows. Like many, Jasmuheen has also been guided by the Divine Feminine to offer retreats that allow us all to take time out and be nourished and recharged while still contributing in a beneficial way to each other and to our world!! With a focus on being deeply peaceful, enjoying the purest flows of divine love, its gifts and grace, and also on Shamballa and Earth's Garden's of Eden, her 2014 retreats will be more uplifting than ever before!

In this retreat-time with Jasmuheen, we will live & share more of:- The Template of our Divine Pure Essence nature which is the baseline frequency field of creation, without it nothing could exist. It is the wrong through which the formless can come into form and thus it is a matrix that becomes a bridge into lower dimensional realms that appear to be more solid. This Essence Template is like a carrying agent through which an ocean of nourishing energy is constantly flowing through to us, yet we must be still and also sensitized to its beat to feel its flows.

Being in a state of deep and lasting peace and contentment, spontaneous healing and experiencing perfect health on all levels of our being, the ability to be nourished from the inside out rather than from the outside in and the joy this freedom brings, plus experiencing the higher, more divine abilities of clairvoyance, clairsaudience and clairsentience, that so many long for – all of this is natural for every human being due to the Templates of Perfection that we each carry within our bodies of light, which provide the circuitry for the human bio-computer system to function.

Accessing these templates is a science and an art, a step by step process of alignment to their frequency fields until we are transformed by being in their energy field, a field of such pure love that we are forever transformed, nourished and this made free from all our human limitations.

Templates can rise and be spontaneously revealed as I experienced with the Template of the Divine Oracle, or they can be consciously tuned deeper into by the art of frequency matching through lifestyle, intention and focus plus the flooding of the system with virtues such as compassion or gratitude. Being fully present in the Now moment, allows us to open to the eternal now that our Essence carries for it exists as pure beingness, the formless, that supports us into form. Identification with the form we are enveloped in or our ego-personality matrix keeps us in that same frequency field.

Once the Template has been revealed or locked into, we will always be nourished by it and once experientially awake to its love and power, we can never fall asleep again. Some of the Templates we will focus on during our 2014 tour this year are:-

- The Template of Pure Essence with its sub-templates of
- The Template of Boundless Beingness
- The Template of Communion (and the Temple of the Divine Oracle) – the joy of its transmissions in all realms.
- The Template of Pure Creativity – of timelessness, passion, bliss
- The Template of Health – spontaneous healing and more ...

- The Self Sustaining Template of Perfect Nourishment and the gifts it has for us and our world.
- The Template of Tantra – being infused in unity consciousness, Oneness and how this transforms all of our relationships.

In our gatherings through 2014, we will also cover the Alignment, Access and Entry techniques and tools for these Templates.

For more on this please contact our [organisers below](#) to see us in your country. Jasmuheen will also train those open to being Diplomats of Love for the Divine Feminine in how to share more of this with others.

In this gathering with like-minded, loving and supportive people, we will also all be,

- Nourished on deeper, purer levels as we enjoy the perfect retreat as both a holiday and a wonderful way to be recharged so that you leave this gathering feeling refreshed, energised, wiser, stronger, strengthened and well supported by both inner and outer plane networks!
- We invite you to take this time, have some fun, to be super-creative and enjoy the more sustainable paths that benefit us all.
- In this retreat we will sit in deep meditation to finetune all our internal and external systems as guided by the group divinity, in ways that are perfect for us all.
- Be prepared to spend personal and also group time in silence, to go deeper into your own intuitive nature and to then share from that pure and perfect part that you carry within that is so wise, loving and aware while you add your insight-gifts to this group field.

JASMUHEEN writes: Pure Love communes, reveals, aligns, inspires, guides, protects, connects, opens doors, magnetises, creates, nourishes, drives, supports & so much more! Living in its flow of Grace, receiving all of its gifts and being nourished on all levels by it is an amazing freedom that is available to all who tune to its pure channel. It is also uplifting, fluid in motion and expression and carries an endless source of wisdom and power! We have entered into a time now where the collective heart of humanity is much more open to the purer rhythms of love and peace as pure Love is addictive and effervescent in its nature and in its joy. Thankfully, there are the deepest currents of the purest love bubbling through the Matrix of life that in turn then bubble through us, and when we dive into this current via our lifestyle and focus, we receive all the nourishment we need so that we are free to give that love without condition or thought of reward and in this very act of pure intention comes the most amazing gifts. This is the way of the fields where the Master is the best servant and those in pure hearted service discover the master within. In the Beingness of love, all is perfect, all is understood, all are just rhythms of awareness and awakening; there is no judgement of right or wrong, or good or bad, or struggle and pain and confusion. All is simply love as all is unfolding in the rhythms of love, held in a field of love, fed by love and is pure and perfect because of this.
