President of the Global Congress of Spiritual Scientists in India, author of 38 books in 18 languages, Peace Ambassador and founder of the Embassy of Peace, Jasmuheen writes: "While 2013 has brought amazing new energies of unity and support, there are still many personal and global systems that will continue to undergo both subtle and not-so-subtle refinements and so there is much re-weaving still to be done on earth so that our systems operate for the highest good of all. Upgrading our personal systems of operation affects the global as well as the universal. Over the past 45 years we have been able to observe the human evolutionary process and use quantum field intelligence, plus our interdimensional Light Being connections, to bring through more refined systems of operation that serve the greater good. During 2013 we will share about what Upgrades are now available to us all and then apply these new Upgrades into our social, economic, environmental and also political systems. Please note that this also includes our Cosmic Micro-fuel Upgrade prana program for health and environmental benefits. As usual with our events, we will work with the group divinity to bring through exactly what Upgrades the group requires. We now have some fabulous new frequencies available to us since the 21st Dec 2012 that will allow us to achieve many great things for the people of our world and the time to do so is now!"

During her visit to Hawaii Jasmuheen will share her new **UPGRADES & UPGRADING Program: Upgrading into perfect health rhythms; upgrading into perfect feeding rhythms and understanding Pranic Feeding & Cosmic Micro Fuel; upgrading into perfect Tantric-love and family rhythms; upgrading more deeply into Unity consciousness rhythms ... plus accessing even more of the innate creativity of our Essence and pragmatically applying this in life.**
